X-10 and X-09; Quick Reference Guide - Feature Comparison

The X-10 was developed as a result of the Government revision of Federal Specification FF-L-4720, now Rev. B. The X-10 was designed with similar features as the X-09 to minimize installation and user training issues. Like the X-09, the X-10 Dial Ring is Battleship Gray, with the same reduced view LCD. The dialing technique remains "Left-Right-Left". The X-10 has the same three operating modes and programming method. The Lock Case and Dial Ring mounting locations are the same. The X-10 has similar audit features. The X-10 is a Self Powered - Green Technology Product.

The following is a quick reference comparison of changes in product features:

<u>Feature</u>	<u>X-09</u>	<u>X-10</u>	<u>Comment</u>
Lock Case	Field Assembly	Through Case Mounting	Sealed Lock Case, Ease of Installation
